

Bring Me Back

(Music & Lyrics Christine Sweet)

I can't seem to recognize
My ego's oversized
Such a shadow over my sun

No one seems to reach me
No one really
Where has it all began

Chorus:
Bring me back please
To where I'm coming from, hey hey hey hey hey

My soul is longing for, a world where I belong
Hey hey hey hey hey, Oo yeah

I've got a pack of lies
It's like the coming tide
Such a shadow over my sun

No one seems to touch me
No one really
Where has it all began

Chorus:
Bring me back please
To where I'm coming from, hey hey hey hey hey

My soul is longing for, a world where I belong
Hey hey hey hey hey, Oo yeah

Bridge:
Bring me back, ooohooohoo

Chorus:
Bring me back please
To where I'm coming from, hey hey hey hey hey
Bring me back please
To where I'm coming from, hey hey hey hey hey

My soul is longing for, a world where I belong
Hey hey hey hey hey, Oo yeah
