

Fairyland

(Music & Lyrics Christine Sweet)

CHRISTINE SWEET

The Music

Intro:

Show me this place my lover
Where skies are always blue, o yeah
If we want our love to glow
We must stand the naked truth

Ahoowahoowahoowow

Show me your real face boy, I need a connection
We could embrace our toys, or go for real affection
Let me in your secret world, don't hide behind your eyes
I'll give you my sacred girl, but hurry is my device
Soon there will be no more

Chorus:

Miracles in our head
No wonders in our eyes
No magic in our bed
And I can't keep it out of my head

Ahoowahoowahoowou

You gotta give the real thing babe, or our love will be crushed
We gotta do some digging babe, or our love will be flushed
Let me in my lover, don't fly away
Magic is under your skin my lover

Bridge:

You've gotta give it away, fairyland
You've gotta give it away, fairyland
O I feel it is almost there, our fairyland
O I can see it is bloodstone red
Soon there will be no more

Chorus:

Miracles in our head
No wonders in our eyes
No magic in our bed
And I can't keep it out of my head

Outro:

Say I believe in fairies, say I believe in fairies
I believe in fairies, I believe in fairies
Say I believe in wonders, in miracles
I believe in wonders, in miracles
Say I believe in magic!
