

Hey People

(Music & Lyrics Christine Sweet)

Things are not always right
And if you look up into the sky
There's no more clear blue skies to see

Why can't we receive the love
Is it so hard to carry a true heart
It isn't so hard to set yourself free (choir: If you do it with love yeah)

Chorus:

Hey people, do you know that I love you
Believe it or not, believe it or not
Hey people, do you know that we're all one...don't you?
Believe it or not, believe it or not

Overcome fear and overcome you
Discover what's real, discover who are you
There's so much to love and nothing to lose

Why don't we do this all together
Building a world of love forever
Defeating the evil ones right now (choir: And we do it with love yeah)

Chorus:

Hey people, do you know that I love you
Believe it or not, believe it or not
Hey people, do you know that we're all one...don't you?
Believe it or not, believe it or not

Bridge:

With love,
With love yeah
Come on sing it
We're gonna do it with love yeah

Chorus:

Hey people, do you know that I love you
Believe it or not, believe it or not
Hey people, do you know that we're all one...don't you?
Believe it or not, believe it or not
Believe it or not, believe it or not, we're gonna do it with with with
Believe it or not, believe it or not, we're gonna do it with love
Believe it or not, we're gonna do it withlove
