

CHRISTINE SWEET

The Music

On Me

(Music & Lyrics Christine Sweet)

Lilith, where art thou
Something has past away
Goddess mother fairy queen
Can you feel where I have been
Dark is my sight

Chorus:
And the moon is falling on me
And the stars are falling on me
I feel like all is coming on me
It fades everything away, I believe

Only my heart is talking to me
It's praying peace for you and me
I felt it coming over me
It took everything away, everything
away

Ah, such a sad song
Lilith, under me
Every brick is gone
Everything I've known
Everything is gone away

Chorus:
And the moon is falling on me
And the stars are falling on me
I feel like all is coming on me
It fades everything away, I believe

Only my heart is talking to me
It's praying peace for you and me
I felt it coming over me
It took everything away,

Solo instrumental

Chorus:
And the moon is falling on me
And the stars are falling on me
I feel like all is coming on me
It fades everything away, I believe

Only my heart is talking to me
It's praying peace for you and me
I felt it coming over me
It took everything away, I believe

And the moon is falling on me
And the stars are falling on me
I feel like all is coming on me
It fades everything away, I believe

Only my heart is talking to me
It's praying peace for you and me
I felt it coming, coming, coming
It took everything away, everything
away
