

Tell Me

(Music & Lyrics Christine Sweet)

It's something in the past they say
The reason I was building these walls
Take these pills, it's the modern way
Makes you feel comfortable behind
your wall
It seems all like a twilight zone going
wrong on and on and on

Chorus:

If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me everything's alright
Somebody tell me I'm okay and I am
lost and found, lost and found
If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me tell me everything's
alright

What the hell is wrong with us
Why avoiding the pain
Tell me tell me what's the buzz
Without pain no gain no gain
Must it be like a twilight zone going
wrong on and on and on

Chorus:

If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me everything's alright
Somebody tell me I'm okay and I am
lost and found, lost and found
If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me tell me everything's
alright

Bridge:

Hug me love me shake me till I'm back
again
Hug me love me shake me till I'm
healed again
Love me love me love me love me
Love me love me till I'm healed again

Chorus:

If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me everything's alright
Somebody tell me I'm okay and I am
lost and found, lost and found
If somebody's out there oh yeah
Somebody save me oh yeah
Somebody tell me tell me everything's
alright

Outro:

Everything's alright, If somebody's out
there
Everything's alright, Somebody save
me
Everything's alright, If somebody's out
there
Everything's alright, Save me
Everything's alright, If somebody's out
there
Everything's alright, Somebody tell me
Everything's alright
