When The Wind Blows

(Music & Lyrics Christine Sweet)

Intro:

Aaaah, shoodoowaa

Aaaah, shoodoowaa

You've got a face so beautiful
You've got eyes like falling stars
You've got it all, you're made out of light
It's nice to be beside you, but then the wind blows

Chorus:

When somebody needs you, it's all right
When somebody hurts you, it's not right
When somebody likes you, it's out of sight
But when love comes around
When it all comes down
You're gone with the wind

You're not afraid to walk on the clouds
You're not afraid to steal the stars
Many places you have been, many faces you have kissed
They couldn't let you stay, because the wind blows

Chorus:

When somebody needs you, it's alright
When somebody hurts you, it's not right
When somebody likes you, it's out of sight
But when love comes around
When it all comes down
You're gone with the wind

Bridge:

When love comes around, when it all comes down
When love comes around, when it all comes down
You're gone, you're gone
You're gone with the wind

Solo

Outro:

When somebody needs you, hey hey hey
When somebody hurts you, hey hey hey
When somebody loves you, oohoowohoo
You're gone
